HEATING AND AIR CONDITIONING SERVICE & INSTALLATIONS

A
Reminder
To Our
Customers

During the past few years, we have had the privilege of helping you and thousands of others. Our service take many forms – emergency service calls for your furnace, boiler or air-conditioner; pre-winter furnace checks and pre-summer air conditioner checks, or phone advice. Please continue to call us anytime for answers to your heating or air conditioning questions.

Now is the time to have your air conditioner checked, and take advantage of our off-season Check-Test-Start Special!

The purpose of the check is to find and correct problems that could cause you serious trouble over the summer months – freon leaks, dirty coils, fan problems, defective switches, loose wires, etc.

Don't wait until the "dog days" of summer to bring your air conditioner up to optimal operation. Begin those hot spells with added confidence that your air conditioner is going to operate reliably and efficiently.

This annual service is recommended by your electric utility as well as by the manufacturer of your air conditioner.

It takes competent service techs to do this job properly. They require an extensive list of tools and parts as well as required refrigerant recovery equipment and EPA certification.

Your Check-Test-Start Special is only \$97.95. You will likely save this amount or more on your summer's electric bills because normal efficiency will be restored. Upgrade to our new "Preferred" Annual Service Package for only \$249.00 (see enclosed information sheet).

This checkup is more important today than it was over 50 years ago when my father first wrote you this letter. Today's air conditioners are much more sophisticated and energy costs are much higher. So please, take a few moments of your time to call (216) 228-8200 now for your appointment to make sure of carefree cooling all summer long.

Very Truly Yours,

David Harris

New for 2018! Call today to take advantage of this great offer! 216.228.8200

\$50 Rebate from First Energy available for having your air conditioning system cleaned and checked by Air Rite Service.

- Step #1) Air Rite performs it's expert CTS (Check-Test & Start) Special on your air conditioning system.
- Step #2) We fill out our part of the Rebate Form* and sign it.
- Step #3) You fill in your information, sign it, include your Air Rite Invoice, and drop it in the mail.
- Step #4) Enjoy your \$50 rebate check from CEI / First Energy**!

* Note: One \$50 rebate (max) per customer. This is for our residential customers, only. You must be a CEI / First Energy customer to qualify. Rebate form will be filled out after work is completed and paid by you. Then, we'll give you a "paid receipt" to send in with your rebate form.

** Note: Air Rite is a participating contractor in the HVAC Maintenance Rebate Program. We are not affiliated with CEI or First Energy, nor make any assurances or warranties of their performance under this program. Air Rite in no way is liable for First Energy's failure to pay rebates

One Call Service

AIR RITE COMPLETE HIGH QUALITY SERVICE

- is the result of years of engineering "know how" and experience as well as an honest desire to satisfy. Up-to-date testing equipment, modern service trucks with complete stocks of service parts and other modern facilities at our servicemen's disposal make it possible to render - *THE BEST SERVICE IN TOWN.*

For Heating

We service anything that burns GAS - furnaces, boilers, conversion burners, power burners, industrial ovens and industrial heaters. This service extends to the design, installation and servicing of electrical and electronic thermostats and controls.

For Cooling

And, of course, our AIR CONDITIONING SERVICE Department offers the same speedy thorough service for all your cooling needs.
